LOCAL NEWS.

The Sentence of the Libel Case Victims

Postponed That Their Attorneys May Move for a New Trial.

Gold-Brick Dutchy's Motion for a New Trial Denied.

Burglars Get In Their Work at Downey—Fire in a Brickyard—A Light-Fingered Moke Operates in Pasadena—Change of Time, Etc., Etc.

At 9 o'clock yesterday morning a large crowd was present in Judge O'Melveny's court, that being the time set for the sentence of Ritchie, who was found guilty by a jury of attempting to obtain money on a brass brick. A friend and two ladies accompanied the defendant and sat near him in court. When the case was called Ritchie's attorneys rose and entered a motion for a new trial. The motion was argued at length by him and District Attorney Dupuy, the attorney for defendant taking the ground that the jurisdiction of the case did not lie with the Superior Court, but that defendant should be tried in a justice's court. At the conclusion of arguments, the Judge said that as his mind was not settled by the matters laid before him by counsel, he would continue the case until Monday next at 9 o'clock a.m. The defendants and their attorneys then left the courtroom.

In a few moments the defendants, A. M. Thornton and B. A. Stephens, in the Bell libel case, came in, accompanied by their attorneys, bearing loads of books, as 10 o'clock was the time set for passing sentence upon the defendants in this case. Bell came in shortly after and attorneys Williams and Denis were present within the bar, as was also Col. G. Wiley Wells. Mr. Stephens, attorney for defendants, stated to the Court, when the case was called, that they had not been able to get the reporter's notes of the evidence in the case and could not, therefore, present the motion for a new trial as fully as they desired to do. He asked that the time of pronouncing sentence be postponed to give them opportunity to get the notes, as the reporter had not had time to transcribe them yet. Deputy District Attorney Denis said that the prosecution had no objection to a reasonable postponement as asked. The Judge said that unless something should be brought out that he could not now foresee, he did not think a motion for a new trial could prevail, but he wished to give defendants' attorneys all opportunities, and would therefore postpone time of sentence as requested until Saturday, July 9th, at 9 o'clock a.m., and the reporter would be instructed to furnish notes of the evidence within ten days from this date.

BLACK DAN.

He Gets Away with a Confiding Citizen's Coin.

Dan Lewis is an accomplished negro, who has delighted the music-loving people of Los Angeles and Pasadena more than once. He is an expert banjoist, and has made quite a reputation in various places. For some weeks past Lewis has been hanging around Pasadena, speculating in real estate, as he said, but his acts during the past few days go to show that he is, or was, trying to get a corner on gulls and greenhorns. Last Thursday Lewis got his black fins on quite a large sum of money, about $350, and lit out for Los Angeles. The gull who allowed him to handle his money visited the Justice of the Peace as soon as he learned that Lewis was not the honest coon he had taken him for, and in a few hours City Marshal Mundell was on his way to this city. He arrived here yesterday morning, and gave a description of Lewis to Detective Fred Smith. Smith soon hunted the negro down, and he was arrested and taken to Pasadena yesterday afternoon. Lewis came from New York a few months ago, and is said to be one of the sharpest black crooks in the United States.

It appears that Lewis worked the Pasadenians very smoothly. As is well known, the children of John Brown, the hero of Ossawattomie, live near Pasadena. They are in straitened circumstances. Lewis announced that the colored people were going to get up an entertainment for the benefit of the children of their hero. The entertainment was held, and Lewis pocketed the proceeds. The Pasadena Star exposed him first.

BURNED BRICK.

Fire in the City Brickyard Last Night.

Just before 9 o'clock last night an alarm of fire was turned in from box 24, located at the corner of Buena Vista and College streets, and on arriving in that vicinity flames were seen issuing from the City brickyard, operated by Thomas Goss. A few minutes after the alarm was given the engines and hose-carts were on the way to the fire, but the J. Kurtz engine, having no orders to go beyond the Plaza, proceeded so far and there remained, while No. 3 and both hose-carts continued on to where they were needed. It was then found that the nearest hydrant to the fire was on the corner of Buena Vista and College streets, and the combined hose of both companies was needed to be of any use, 1000 feet being unreeled before water could be thrown in any quantity. The flames were then speedily subdued, but not until a large amount of damage was done by both fire and water.

A BURGLARY.

Frankel Bros.' Store at Downey Entered.

It would seem that Southern California is alive with thieves and house-breakers. At an early hour yesterday morning two or three safe-crackers forced their entrance into Frankel Bros.' store, at Downey, and succeeded in getting away with $800 worth of goods and coin. They forced the back door open, and when the store was opened yesterday morning it looked very much as if a herd of Texas steers had been through the place. There are a number of hard-looking citizens hanging around Downey and the officers are after them. A description of the goods has been telegraphed to Los Angeles and the officers expect to capture the rascals.

THE RAILROADS.

Southern Pacific's Depot—Fool Canards.

The presence of General Manager A. N. Towne, of the Southern Pacific Railroad, is supposed to mean that the matter of a new site for the Southern Pacific's new passenger depot is to be closed at once. Though three locations are discussed, the choice lies between two—the Sisters' School grounds, corner Macy and Alameda, and the Wolfskill tract, of forty-nine acres, on Alameda street, south of First. It was pretty certain last night that the latter point had been definitely selected. The tract will not be bought by the railroad company, but by a syndicate, which will give the railroad a depot site and right of way, and make its money by subdividing the rest of the tract.

An amateur morning paper, which, in default of news, is now devoting itself to the building of wild-cat railroads, printed as news yesterday the somewhat stale story that some one has an inlet at Portuguese bend, which is to be sold (maybe) to some railroad for a harbor. The only remarkable allegation about the story is that the Southern Pacific and the Atchison, Topeka and Santa Fé have both secured the right of way, and will control the harbor together! This is not true. The Santa Fé has not got, nor have any of its agents got, a foot of right of way to that alleged harbor; and it will be a cold day, indeed, when the Southern Pacific goes there. The highest Santa Fé officials here brand the story as a canard to boom real estate in some quarter.

Base-Ball.

Yesterday's game at the ball park resulted in favor of the visitors by a score of 9 to 8. Manager Turner and Capt. Monroe are to be blamed for yesterday's defeat, as the team they presented against the San Luis Club was about the worst that has ever adorned a Los Angeles uniform. Not a man of the regular players except Young and Lohman were in their positions, and it is surprising that they did as well as they did. The features of yesterday's game was the fielding of Nagle, Morris, Turner, Young and Lohman, and the batting of Hapeman, Monroe, Nagle and Haydock. Crawford at first for the visitors and Hapeman at short for the home team played very poorly. The Examiner pennant is the prize offered the winners of today's game, and it is trusted that the team will all play in their home positions.

Following is the score:

IN SOCIETY.

A WEEK'S MERRY ROUND OF GAY SOCIAL EVENTS.

The Brilliant Ellis Party—The Hugus, Crocker, Harvey and Other Parties—The Woman's Club and Tennis Club—Society Personals.

Every time one goes to the theater or any place of public amusement in Los Angeles, one comes away with a rooted disgust at the prevalent ill-breeding—chiefly, one regrets to remark, on the part of the feminine contingent. There is no use in denying that women can control the general tone of any mixed audience, except in unusual cases. Men are generally in a placable state of mind at such places, and prefer, if in charge of a lady, to be peacefully inconspicuous. It is always the lady who objects, who talks too loudly, who laughs too boisterously, and who sometimes behaves in a manner that would, were she of the opposite sex, earn her a deserved and speedy ejectment. The lady Angeleños cannot be accused of such enormities as that, but let them, especially the younger ones, cast their bright eyes upon the following brief suggestions for the theater-goer, culled from a great authority in such matters. This censor of theatrical behavior begins with this important axiom, which should be eternally imprinted upon every heart that beats beneath—a bodice, or even an equipoise waist, to wit: "The manners of a girl in public have more to do with her success than quick wit, or a pretty face."

Read this, dear girls, and ponder it. It is as true as gospel. As true as the queer fact that men, though by no means very particular about their own manners or speech, do most certainly expect their lady friends to be so, and will never heartily admire or really love a girl who, possessed of womanly virtues it may be, yet wounds their self-love and spoils their illusions by mortifying them by an exhibibition of "bad form" in public. In order that this may not happen from ignorance the aforesaid wise friend has educed the following "thou shalt nots," following them, in good old scriptural style, by a promise to those who fulfill the law;

Don't look at any other man but your escort or the actors on the stage.

A girl who smirks and bows with abominable cordiality to all her male acquaintances, and craning her neck out of shape to see them, is unspeakably rude, and will probably never accompany that young man again.

Don't indulge in society gossip about your friends in an audible voice.

You may find the period between the acts your only chance to retail the gossip which is so entertaining to you, but remember that, at best, it is rash, and that it is always ill-bred to mention names in public places.

Don't take a serious view of the play.

This means, don't bore your escort with deep problems of right and wrong, and insist upon digging up his opinions about abstruse themes remotely connected with the play.

Don't take a comic view of the play. This is plainly meant as a much-needed warning against the undue indulgence in the privilege of the sex—a giggle. There may be real pathos in the play, and some one near you may be touched to real tears. You don't own the world, though to the young and light-hearted it may seem probable.

Don't object to things, such as a post, or a hat in front of you, or the situation of your seats.

This is too plain to need exegisis.

A post is necessary to uphold the gallery, and somebody has to sit behind it. The hat in front of you is probably not half so big as your own, and as for the seats, your escort is powerless before the box office fiend, as are all others.

You will see from the above rules that the ideal girl does none of these things, but, quoting our friend again, "goes on a moment's notice, isn't silly or affected about the seats, instantly decides that the leading man is 'horribly ugly'—great point this—sits half way round in her seat, with her face toward the lucky man, and smiles and purrs away the whole evening without once looking at any other man."

And now for the promise. What shall she get?

"Ahem! the society of a very elegant gentleman for three or four hours per evening, and if she impresses him favorably, she is liable to be suddenly and violently confronted with a small supper after the play, to say nothing of carriages, flowers and bright and brilliant flashes of conversation."

Now, all this was well enough for my friend, for he was capable of all this and more; but—let the youth of Los Angeles strive to confer such a reward with exceeding great strife—they need to.

PARTIES.

Several Elaborate and Very Pleasant Gatherings.

THE ELLIS PARTY.

By far the prettiest party of the social season was given by Mr. and Mrs. C. J. Ellis, last Thursday evening, at their residence on Ellis avenue. Brilliantly-tinted Japanese globes hung from the branches of the orange trees that line the smooth quarter-mile of the avenue leading to the grounds, and of these they dotted every point of vantage, making circles of light about the dark firs of the lawn. Here and there on the velvety grass were large Japanese umbrellas tilted up, and from all their points hung tiny lanterns also. By 9 o'clock most of the guests had arrived and had been met by their hosts at the entrance of the spacious hall. Since the *renaissance* of the house, which is but just completed, it would be hard to find a private home in the city better adapted for the comfort of guests. Canvas covered the floor of four large rooms, and the broad porch, softly lighted, sheltered with canvas and carpeted with rugs, made the ideal resting-place after a rapid valse. Upstairs the sedater contingent found cards and their concomitants. When the pretty dancing card showed the number about half over, the less frivolous slipped quietly out a side door into a cool and roomy tent; and being comfortably seated, submitted with cheerful patience to numerous courses of dainty devourables. Departing at a late hour, every one felt that the occasion had been a specially charming one. Among those present were: Mr. and Mrs. Caswell, Mr. William Caswell, Dr. and Mrs. Ross, and Percy Ross, Miss Brandt, Mr. and Mrs. Goodwin, Mr. and Mrs. Lankershim, Miss Constance Jones, Mr. and Mrs. J. Downey Harvey, Miss Miles, Mrs. J. Cook, Judge and Mrs. Gardiner, Mr. and Mrs. S. M. White, Mr. and Mrs. C. E. Thom, Mr. and Mrs. F. G. Teed, Mr. and Mrs. Albert McFarland, Mrs. Dameron, Mr. and Mrs. Charles McFarland, Mr. and Mrs. King, Miss Frankie King, Mr. and Mrs. McLellan, Mrs. May McLellan, Mr. and Mrs. D. McFarland, ex-Gov. Stoneman, wife and daughter, Mrs. H. T. Lee, Mr. and Mrs. J. J. Mellus, Maj. E. W. Jones and daughter, Mr. and Mrs. Henry O'Melveny, Mr. and Mrs. Plater, Mrs. Irvine, the Messrs. Byrne, Mr. and Mrs. C. T. Parsons, Dr. Lummis, Dr. Wills, Miss McDonald, Miss Flash, Miss M. Banning, Miss Forman, Mr. Forman, Miss Viele, Judge Silent and daughter, Mr. H. J. Fleischman, Mr. Harden, Mr. and Mrs. J. F. Crank, Mr. L. H. Polk, Mr. Johnston, Mr. Redick, Mr. Grimth, Mr. Cunningham, Miss Georgia Mott, Miss Dillman, Messrs. J. Brown, Montgomery Leck, C. Sloane, and C. Mudge, Mr. Cole and sisters.

JUBILEE BALL.

It would be impossible to give an extended list of those present at the Jubilee ball on Tuesday night. Suffice to say that the object was a worthy one, that everybody and his wife were there, and were well pleased with the arrangements for their comfort and pleasure. Good music, a fine supper, patriotic songs and a generous attendance of the *tout monde* were the principal features of a gathering which was given in honor of that honored and remarkable woman, the English Queen.

G. A. V. RECEPTION.

The young sons of the old veterans were given a pleasant reception by Mmes. Amy C. Brown, R. Spencer and Alice Fitch at the home of the latter, 533 Florence street, on last Wednesday evening. Games, music and recitations filled the evening acceptably to the half-hundred present.

A GLORIOUS FOURTH.

A party of fortunate young people will spend the Fourth of July at the Banning ranch. They will go down on Saturday and remain until Tuesday. The "good times" they will have can be imagined, for they will take an orchestra with them, and while there will have a steam yacht at their own sweet wills. Some members of the party are Mr. and Mrs. Hermann, the Misses Visscher and Bradley, and Messrs. Lacy, Childs, King, Suesserott and Mudge.

THE HUGUS PARTY.

On Friday night, a gay party of Pasadena and Los Angeles young folks left Pasadena proper for a drive to the lovely new home of Mr. and Mrs. Hugus, near the foothills. The party were chaperoned by Mrs. Hermann, and consisted of Mr. T. W. Suesserott, the skillful driver of the six-in-hand, the Misses Visscher, Misses Bradley, Miss Fowler, Miss Barnum, Mr. and Miss Allen and Messrs. F. Childs, H. Banning and C. B. Mudge.

THE CROCKER PARTY.

On Friday evening Mrs. Amy C. Crocker received about fifty of her friends at her mother's home on Olive street. Cards and dancing were enjoyed, and at midnight an elegant supper was served.

THE HARVEY DINNER PARTY.

Last night Mr. and Mrs. J. Downey Harvey gave a small dinner party to a select party of friends at their new residence on Figueroa street.

Clubs.

THE WOMAN'S CLUB.

The Woman's Club held its last meeting for the season yesterday afternoon at Armory Hall. The day was in charge of the literary committee, the contributors choosing their own subject from among the minor writers. Mrs. L. V. Newton read a brief paper without title, giving first a characterization and then quotations from the writer she had chosen. At the close of her reading a correct guess was made by one of the members that the writer was Ella Wheeler Wilcox. Miss Collier followed with a short, critical paper on E. W. Howe, and quotations from Mr. Howe's first novel, "The Story of a Country Town." After some discussion of the book, Dr. Lummis read an extract from an article in the Atlantic, by Agnes Repplier.

The treasurer having reported a small sum in hand after settling all debts of the club, it was moved and carried unanimously that this sum be deposited to the credit of the Kindergarten fund. The informal meetings at the house of Dr. Lummis, last summer, having been successful. Mrs. Wills offered her house for the use of the club. Meetings will be held there every fourth Saturday, the first one on July 30th.

THE OXYMEL CLUB.

On Monday evening the Oxymel Club held its regular meeting at the home of Miss Lockhart, 27 Buena Vista street. Besides the members there were many visitors present, and to the latter the club was indebted for the music of the evening. J. Bond Francisco gave some exquisite selections on the violin. Mrs. Mamie Perry-Davis sang a solo, as did also Miss Florence Perry, both of waich were fully appreciated, Mrs. Jennings acting as accompanist. An instrumental duet was finely rendered by Mrs. Jennings and Miss Perry. J. H. Brenner gave a selection on the piano, which was well received. Mr. Gemunder was also present, but unfortunately came without his 'cello.

The subject for the evening being "Man," the ladies considered themselves capable of taking charge of the entire programme, which they monopolized, declining any aid proffered by the gentlemen, and they did their work well. Miss Mary Foy read an "Essay on Man," making it appear that a gentleman is spoken of by the fair daughters of Eve as suits their fancy, and there is an evident lack of similarity of ideas among the gentle critics regarding the same individual. Miss Lockhart gave a selection on "Man as a Housekeeper," which showed that the office of general manager of household affairs may be retained by the present incumbent without opposition from the men. A "Paper on Man" was then read by Miss Bowers. Miss Sarah Reese cheerfully gave some good "Advice to Young Men," which was attentively listened to and well received, for all knew it came from a reliable source and was therefore entitled to much weight. Miss Embody treated "The Gentleman" in a very lady-like manner in a bright little paper written by her. At the conclusion of the programme for the evening Mr. Voglesang, of the club, favored the company with some select renditions from Shakespeare. The ladies were very guarded in their remarks about their brothers, as well they might be, for when it came time to go home they all found that a man or two, with all his faults and failings, was not so bad after all.

TENNIS CLUB.

The Tennis Club has organized officially at last, and expects to hold two meets a week, alternately at the Belmont and at the grounds of Maj. E. W. Jones. At a business meeting at the Belmont the following officers were elected: President, Miss Louise Jones; vice-president, Mr. Patrick; secretary and treasurer, Mr. Paul Birdsall; secretary pro tem, Miss Carrie Betts.

Weddings.

CLAPP-MILLS.

Last Tuesday morning, at 10 o'clock, Miss Anna Mills was married to Mr. A. B. Clapp. The marriage ceremony took place at the house of the bride, on Hill street, but the newly-wedded ones will go to their own home, on Grand avenue, a gift to them from Mr. Mills. The bride had quite a flock of fair friends about her at the supreme moment, having four young friends and her Sunday-school class as maids of honor.

HASKELL-MACKEY.

Last Wednesday, at her father's residence on Amelia street, Miss Nellie M. Mackey was married to Mr. G. A. Haskell, of the firm of Powell & Haskell. The young couple left the same day for a bridal tour to San Francisco. Miss Mackey was one of the faithful teachers of the Free Kindergarten, and will be sorely missed should she give up her duties in that direction.

San Juan-by-the Sea—Proposals for a Hotel.

The Pacific Land Improvement Company have platted and will soon place upon the market this bewitching seaside resort. Its beauty is known to Californians as exceeding anything on this coast. A magnificent hotel-site on the bluff, 125 feet above the sea, has been set apart. This will be deeded to the company or individual who will enter into a contract to construct, within four months, a hotel to cost not less than $50,000. The most costly building will secure the prize.

Address George H. Fullerton, president Pacific Land Improvement Company, room 21, Wilson block, Los Angeles, Cal.; or W. H. Holabird, general agent, Santa Ana, Cal.

The odd blocks in the Providencia ranch, located west of and near the town of Burbank, embracing forty acres each, will be placed on the market at the office of the company, No. 12 South Spring street, on Monday morning, June 6th, at $100 per acre, which is lower, considering the quality of land and its near-by location, than any land now offered in Los Angeles county.

The Future Harbor of Southern California.

THIS IS THE OCEAN TERMINUS OF THE CALIFORNIA CENTRAL RAILROAD, OF THE ATCHISON, Topeka and Santa Fé system, who are under contract to lay five miles of sidetracks at this point by July 10, 1887—the shortest railroad line between the Atlantic and Pacific Oceans. PORT BALLONA is situated on Santa Monica Bay, only thirty minutes' ride by rail from the City of Los Angeles, with trains to begin running every three hours in the day early in July. Property can be purchased now at a much lower figure than when railroads and steamships are brought together. The residence property is at an elevation of from 50 to 75 feet above tide-water, thus affording a most magnificent view, extending from Point Duma to the San Jacinto Mountains, and from the San Bernardino Mountains to Santa Catalina Island, in the Blue Pacific, and with a Beach unsurpassed on the Coast.

BURTON MOUND,

A Seaside Hotel Resort at Santa Barbara.

IN SEEKING FOR A PLACE TO erect a large hotel to accommodate tourists and other guests, perhaps none can be found combining more attractions than the "Burton Mound." Situated at the foot of the long, gentle slope on which the city of Santa Barbara lies, the 23-acre tract called "Seaside Hotel Property" has the advantage of a mound, which comprises about three acres, rising above the surrounding lands to the height of twenty feet. This mound rises gradually, and is sufficiently level on top to admit of large buildings, with cottages surrounding. While in the city, it seems in the country. It is one tier of blocks from the busiest street and wharf, and runs down to tidewater, with a wide, smooth beach in front. No miasmatic swamps are near. The temperature is warm in winter and cool in summer. Temperature of ocean water varies but eight degrees in the whole year. Ocean bathing is practiced by many the whole year round. It holds in view the ocean, mountains, foothills, islands and beautiful valleys of Carpinteria and Montecito. The Old Mission Church is seen in the northwest, and the beautiful grounds and mansion of Mr. Dibblee on the high lands adjacent.

A spring of sulphur water bubbles up on one side of the mound, and another in which from predominates springs from the other side, so that baths of these two, and of the ocean water as well, and baths of pure, cold, soft water may be had at trifling expense.

☞ This choice and desirable site for a seaside hotel is for sale. Inquiries may be made in person or by letter of any of the following stockholders or directors:

COLOSSAL ENTERPRISE

Years ago, when Los Angeles—or to use the Spanish phrase, City of the Angels—was unheard of East of the Rocky Mountains, and almost unknown to any American, SAN GABRIEL, LIKE LOS ANGELES, was the chosen place of the inhabitants of the country at that time as the place of all others for

FERTILITY OF SOIL, PICTURESQUENESS OF SCENERY

And a climate that has so charmed the tourist and capitalist. Today San Gabriel has a national reputation of having that soft, mild, balmy atmosphere that cannot be found anywhere else in the world. It is well known that SAN GABRIEL IS IN THE THERMAL BELT; is the home of all kinds of citrus fruits, and the profusion with which all kinds of tropical fruits, flowers, palms, and even the delicate, tender and most tropical plants existing here is sufficient evidence of the unswerving judgment and wisdom of the people in their choice. THE IMMENSE RESOURCES OF SAN GABRIEL VALLEY have for the last few years been gradually developed, until its fame is world-wide. Last year the freight shipments from San Gabriel Station alone were over forty-four million pounds, with

Two Great Continental Railway Lines,

THE ATCHISON, TOPEKA & SANTA FE and SOUTHERN PACIFIC,

Traversing the entire length. It is the very heart and connecting link through which two of the largest railway systems in America operate between Los Angeles and the great cities of the East, being the greatest railway thoroughfare of Southern California, together with wonderfully productive soil. Values have been rising so rapidly in the last few years as to place it beyond the reach of many who would gladly make investments if opportunities were offered.

THE SAN GABRIEL LAND AND WATER CO.,

Comprising the following named gentlemen, of which Col. H. H. Markham is President; L. W. Denis, Vice President; H. H. Markham, L. W. Denis, C. H. Bradley, F. L. Raymond Nelson Vanderlip, Directors; E. P. Johnson, Treasurer; A. L. Burbank, Secretary, have purchased the famous Titus ranch, including the Foord, Ames, Clapp, Bradbury, Gibbs and Howard properties, adjoining San Gabriel on the north, south and east, and subdividing and platting a town, to be known as NEW SAN GABRIEL. The company will offer on

Wednesday Next, at 8 A. M.,

Part of the above property for sale at very reasonable figures, considering the immense improvements to be made. One of the most prominent streets will be the San Gabriel boulevard, 100 feet wide and about four miles long. Two other fine avenues, crossing San Gabriel boulevard at right angles, will be known as Broadway and Grand Central avennes. Already orders have been issued by the S. P. R. R. Co. to lay sidewalks and erect one of the finest depots in Southern California for the new town.

The company will build a hotel to cost between $40,000 and $50,000, and with other extensive improvements in the way of building street-car lines and piping water. The supply is inexhaustible. The fountain-head, located on the Titus and Foord ranches, attains an altitude of 240 feet, or thereabouts, above

THE NEW SAN GABRIEL,

Giving sufficient pressure to conduct water into the upper story of the highest building. San Gabriel, with its central location, and the gentlemen located in the immediate vicinity with their capital, push and enterprise, will soon place the new town where it will have only one rival in the county, Los Angeles, Los Angeles county.

TERMS OF THE SALE:

$25 cash on each lot for ten days, when the balance of the one-third payment will be required. Deferred payments in one and two ye ars at 8 per cent.

No person will be allowed to select more than twenty lots at one time. When more than one lot is selected parties will be required to select one-half on each side of railroad. Numbers will be printed and handed to parties on entering the office. Doors open at 8 a.m.

THE fate of the miners in the Virginia City shaft is still an uncertainty.

SIMMONS, the accused incendiary of the Hotel Del Monte, has been acquitted.

EMPEROR WILLIAM is nearly a well man again. Even the doctors could not kill him.

THE real-estate transfers thus far this month foot up $9,996,549. This will be something more than a $10,000,000 month.

THE Santa Clara viticulturists have invited Senator Stanford and Representative Felton to meet with them and discuss needed legislation in the interest of wine-growers.

RIVERSIDE yesterday voted $50,000 bonds for a new high-school building. There were only eleven dissenting ballots. There are three things that Riversiders are practically unanimous upon: First, water; second, temperance; third, [illegible].

CALIFORNIA justice is not to be trifled with. During the argument in the Simmons trial yesterday Engineer Kapp, of the late Del Monte Hotel, being displeased with something Attorney Delmas said, shouted "Rats!" They sent him to jail.

THE Los Angeles County Pomological Society will hold its next quarterly gathering at Orange, July 7th. These horticultural love-feasts have become famous, and wherever they are held there is sure to be a good attendance and interesting proceedings. This society has done more than any other thing about an acquaintance between people of different sections of the county, and to inspire a feeling of fraternity and cooperation among the growers. Orange is sure to give horticulturists a hearty reception.

Some Evils of the Boom.

Prof. C. V. Riley, Government Entomologist, when in Los Angeles a few months ago, called attention to one of the evils of our boom, and we think most fair-minded men conceded that his point was well taken. "Your fruit farmers catch the corner-lot fever," he said, "and they stake off their finely-cultivated places and practically give them over to neglect. The weeds grow, the ground dries, the insect pests propagate and multiply without hindrance, and the horticultural interests all about are sacrificed."

This, unfortunately, is too true of many localities which are as yet in the transition stage from country or suburb to town and compact settlement. Of course, when these properties are occupied in small holdings, the neglected trees are nursed back to life and vigor, and lawns, shrubs and flowers are planted, rendering the section beautiful again. But meanwhile there is a hiatus marked by neglect and decadence which is painful to every lover of nature—to everybody, in fact, who takes delight in California's rural beauty. Have trees feeling? Perhaps they have; who shall say? Certain it is that any man who has grown them and cared for them, and learned to love their companionship, feels the same twinges of sympathy and regret in seeing them sick and suffering that he does in regarding a dependent animal in pain.

There are too many suffering orchards in the outskirts of Los Angeles and Pasadena, and other rapidly-growing places in this end of the State. And if the subdividers of suburban tracts were wise in their day and generation they would see that they can illy afford to allow the marks of decadence to thus settle upon their properties. They would see that this very thing exercises an influence in repelling people of fine sensibilities from the localities which they are desirous of selling for settlement. Owners of these tracts could, by a little good management and a trifling expense, keep their properties in good condition—the trees healthy and vigorous—and they would find that, if they did this, their sales would go right along without much investment in flamboyant signs and blaring brass bands.

These remarks are called forth by a communication, which appears elsewhere, calling attention to the neglected condition of tracts along the river in the southern part of the city. This curtain lecture is, therefore, specific as well as general, and we hope it may do some good.

Another evil effect which hangs upon the boom is the tendency to draw away effort from legitimate industry into speculation. A resident of South Pasadena said to the writer a few days ago: "It seems almost impossible to enlist anybody in the usual trades and mechanical industries at our place. We need a grocery, a dry goods and a boot and shoe store; we need a blacksmith shop, a wagon-shop, and I don't know what else, and there is assured patronage for all of them; but it is like drawing eye-teeth to get anybody to take advantage of these openings. One gentleman offers to put up a good store, and he would even furnish a part or all of the capital to stock it, with a good man in charge, but the good man does not come along."

This state of things can be found all through booming Southern California, where the attractiveness of real-estate speculation operates a good deal as the allurements of mining did in the early days. There are thousands of opportunities awaiting tradesmen and artisans who would be content with moderate returns. Obtaining a foothold in this growing country, their modest beginnings might be amplified into a competence with a few years of consistent effort.

It has been sneeringly asserted that Southern California is no place for a poor man, but it is the very place for him. If he has no means at all, there are abundant opportunities for him to obtain employment at good wages, and, by faithful effort and economy, he can soon gain a financial footing. If he has a little means, he can find an opening such as we have alluded to, whereby to increase his stock and wax prosperous.

Another evil of the boom is felt in Los Angeles, which is growing like a great hulking boy—growing till its toes stick out of its shoes, its pantaloons fail to reach and its jacket and hat are no longer even a tight fit.

Los Angeles is away behind in almost every kind of municipal improvement—in public buildings, in street pavements and sidewalks, in sewers and sanitary safeguards, in gas and water supplies. It is going to require the liveliest sort of work, and very lively expenditure as well, to get a new suit of clothes to fit the big city, which has grown up and is growing up all at once.

The specific evil of this rapid growth is that the city is lacking in the municipal regulations required for so large a place. We need laws governing buildings; we need an especial supervision of plumbing and sanitary appliances; we need ampler and more effective systems in every branch of the city government.

If our heads are not too much turned by the boom—if we do not all drop industry for speculation—we shall require all these things in due time, and build up a city whose beauty and good order will pass into a proverb.

AMUSEMENTS.

"HELD BY THE ENEMY."—The preparations for a week's appearance here of the strong company which will produce Gillette's American play, *Held by the Enemy*, are completed, and tomorrow night will witness the opening. The engagement is looked forward to with a great deal of interest.

It will be given with the same cast, scenery and effects that made the play so remarkable a success in New York, Boston and San Francisco, whence its praises have spread throughout the country. The name of the play is derived from the scene of its action—a Southern city, held by the United States forces during the late war. It is a love story, but is said to be thrilling in the [illegible] incidents, which take their color and interest from the surroundings of war. The action is said to be of the most exciting nature, but without sectionalism. A Union colonel is in love with a Southern girl, who is engaged to a lieutenant in the Confederate army; but who returns the colonel's affection. The story works out from this point.

The play had a run of 100 nights at the Madison-square Theater, New York; seventy-five nights in Boston, four weeks at the Baldwin Theater, San Francisco, and has met with corresponding success in every city where it has been produced. It is said to be one of the strongest plays on the stage. It certainly utilizes admirable material.

THE OURA JAPANESE TROUPE—Will open at the Pavilion next Friday evening under the management of Messrs. McLain and Lehman. The public are assured that this performance will be a treat, and it has the merit of being a departure from the ordinary dramatic and specialty shows. The four funny little Japs stand at the head of their profession. The company consists of sixteen artists—real, royal Japanese performers, who have never been seen in America before. A matinée will be given Saturday to allow ladies and children an opportunity to see this wonderful performance.

CINDERELLA.—Mrs. Charles Burton, who has been very successful in organizing *Cinderella* entertainments in other cities, is in Los Angeles, and expects to form a juvenile amateur company here. *Cinderella*, as everybody knows, is a very pretty burlesque operetta, and it will be great sport for the little ones to participate in its presentation. Mrs. Burton's company of 900 children, in San Francisco, performed at the Baldwin Theater for three weeks.

THE PROHIBITIONISTS.

They Hold a Mass Convention and "Resolute."

The Prohibitionists of Los Angeles county held a mass convention in Armory Hall yesterday. The attendance was fair, about 150 persons being present in the morning. The convention lasted all day, and the result of its labors is summed up in the following resolutions.

1. Resolved, that it is our imperative duty to adopt all wise plans and measures for the organization of the Prohibition party in this county, and for the distribution of temperance and prohibition literature, and for the organization of juvenile organizations to cooperate with all other temperance organizations, and to protect our homes against the saloons.

2. Resolved, that the County Central Committee deserves and receives our hearty thanks for adopting means for the organization of Home Protection leagues in this county, and that we heartily indorse their action and approve their selection of D. F. Kuffel as County Organizer, and recommend that he be continued in the work. And we recommend that Prohibition clubs be formed in every precinct in the county.

3. Resolved, that national prohibition is a necessity, and that organization of precinct, township, county, State and nation is the duty of the hour. And that we welcome to this county, as a national speaker, Hon. T. C. Richmond, heartily indorse his work and recommend him to Prohibitionists elsewhere over the land.

4. Resolved, that the press is the greatest, cheapest and best arm of the temperance service, and that without it it is impossible to reach all of the people continually. "Sow the land knee deep with temperance literature" has been the wise exhoration of the ablest and best of our leaders. It has not been done. It ought to be done, and let each of us perform our part in doing it henceforth. Let it not be said, in this county at least, that only one in seven of the Prohibitionists take any temperance literature for themselves. We earnestly recommend that every Prohibitionist subscribe for some temperance paper and contribute as much more as he can spare for distributing temperance literature among his friends and neighbors.

5. Resolved, that we recognize the plans and methods of the National W. C. T. U. with their departments and organizations as being the wisest ever yet adopted, and we promise them our coöperation, and that we will try to emulate their fidelity to conscience, and their zeal and achievements.

6. Resolved, that each member of the Prohibition party should be solicited to contribute $1 each, or such amount as may be convenient, and pay the same into the treasury of the County Central Committee for the carrying on of the prohibition work in this county.

7. Resolved, that the murders of Rev. George C. Haddock, Gambrell and other martyrs on account of their efforts to sustain the laws which prohibit the dramshop, are outrages which should nerve every good citizen of this Republic to vote out immediately the infamous traffic whose business is murder and robbery, and that continually.

8. Resolved, that the president and secretary of the County Central Committee be appointed as a committee from this convention to present these resolutions to the temperance convention to be held at Long Beach, in this county, on the 14th, 15th and 16th days of July next.

9. Resolved, that the Scripture saying, "Wine is a mocker and strong drink is raging, and whosoever is deceived thereby is not wise," is especially true of California wine, and we warn all people everywhere against their use.

10. Resolved, that we condemn in the strongest possible manner the sending of intoxicating liquors to the St. Louis Encampment of the Grand Army of the Republic.

ACQUITTED.

Simmons, the Ex-Del Monte Manager, Gets Off.

A Verdict of Not Guilty Found in Seven Minutes.

It Was Clearly a Case of "Not Proven."

Only the Man Who Shouts "Rats" Gets Into Jail—Affecting Scene in the Courtroom When the Verdict Was Rendered.

By Telegraph to The Times.

SALINAS (Cal.), June 25.—[By the Associated Press.] Attorney Delmas continued his argument for the defense in the Simmons case this forenoon, following up his attack of yesterday on the railway company and the methods which have been employed. The case will probably go to the jury tonight. In his closing remarks Delmas said: "This whole prosecution is a fabric of iniquity and rottenness, and will fall by its own weight. Every rightful influence, and some not rightful, will be brought to bear on this jury. Why are strange characters infesting the town until a verdict is given? Why are they dogging every footstep? It is your duty to find a verdict without fear, and without currying favor with the gigantic corporation so potent for good and evil in this State."

H. V. Moorehouse, for the prosecution, then made the closing speech. "There is not one jot of evidence," he contended, "to show that, previous to the night of the fire, the water-pipes in or about the building were out of order. There were no matches, stoves or flues in the locality of the room where the fire originated. The fire was deliberately planned. The State," he said, "could not prove by direct testimony that Simmons applied the torch, but every circumstance pointed him out as the criminal. He was to have gone on the day before, but remained on the improbable ground that he wished to say farewell to his friends. The time of night when the fire broke out was suspicious. Every witness agreed that the water would not run. The tank was found full on the following day, establishing manipulation, without question."

During the progress of Delmas's speech Kapp, who had been an engineer at the Del Monte Hotel, yelled "Rats!" He was arrested for contempt of court and sent to jail.

The case will probably go to the jury tonight.

ACQUITTED.

SALINAS, June 25—6 p.m.—Simmons has been acquitted.

Moorehouse closed the prosecution at 3:45 p.m., and the Judge delivered his charge to the jury. The jury retired. Seven minutes afterward a loud knocking was heard from where they were confined, and the Sheriff hurried into court and said: "Your Honor, the jury have agreed." Before the jury entered, Judge Alexander raised his head and said: "I want it distinctly understood that no matter what the verdict may be, no demonstration in this court will be countenanced."

The jury filed in, and the verdict was read amid rapt silence. When the words "not guilty" fell on Simmons's ear, he did, indeed, turn ashy pale. His attorney, Delmas, grasped defendant's hand, and the latter turned round and began to comfort his wife. The scene was most affecting, and a large percentage of the ladies in court were weeping. As the jurors passed by Simmons they shook hands with him and tendered congratulations.

The quietness which has prevailed in shipping circles for several weeks past was broken yesterday by the arrival of thirty-three vessels. Among the arrivals were five ships, one deep-water vessel and others, coal traders; one bark, one brig, one barkentine, two steamers and twenty-three schooners. The latter are all lumber vessels, and bring a total of over 4,000,000 feet of lumber from different ports.

Beyond killing a few head of cattle these Indians had committed no depredations. An attempt to make the Indians work, it is said, has caused the outbreak.

Schooner Captured by Indians.

VICTORIA (B. C.), June 25.—James McNerhaney, of Campbell River, about forty miles north of Comox, reports to the Vancouver News that a schooner manned by George Powell, Henry Moore and another man left for the North to trade with the Indians, and nothing has been heard of them since. A short time ago an Indian told him he had seen on the coast three white men who had been murdered with an axe, and that the schooner had been burned by the Indians. It was attacked and captured and the men murdered. After a desperate fight the schooner was plundered and burned. Tom, an Indian, whose brother was hanged at Nanaimo, has been heard to say he would get even and is suspected of the murder. McNerhaney is confident the men have been killed, and as the schooner has been absent a few months he believes the story is true.

A Ruse of the Government.

CHICAGO, June 25.—A special from Winnipeg says: Secret orders have been issued to local volunteer battalions to hold themselves in readiness for active service. It is believed to be a ruse on the part of the Dominion Government to send volunteers west under pretext that another uprising among the Indians is imminent. It is claimed that the real porpose of the Government is to prevent Manitoba from building the proposed railway to the boundary and the troops are to be stationed here to accomplish that end.

WASHINGTON.

The Authorities Bearing Down Hard on Fraudulent Desert Land Entries—Oregon Gets the First Squeeze.

WASHINGTON, June 25.—[By the Associated Press.] Commissioner Sparks today took the necessary preliminary steps to cancel fifty-five desert land entries in Wyoming Territory, aggregating in all about 35,000 acres. The Commissioner, in his letter to the Register and Receiver at Cheyenne, states that the final proof in all of these cases is substantially the same, and is to the effect that by means of ditches already constructed, an ample supply of water is at hand to properly irrigate the lands. That the claimants own the right to water thus secured, and have never parted with their interest thus reclaimed, and have never agreed to do so. A special inspector of the General Land Office, upon investigation, reports the following: "Upon a majority of entries, no ditches that would carry water have ever been constructed, while few ditches that have actually been constructed have never been utilized. A survey of one large and several latter ditches was made, and a plow-furrow made in many places to show the line of the surveys, but no actual bona-fide ditching was ever done by the claimants, or by any one for them, and all the ditching that was done was of the most shadowy nature, and was not substantially useful, nor intended to be so. The land has not been reclaimed nor irrigated to the slightest degree on any one of the fifty-five cases enumerated, and was at the date of the investigation in the condition it was at the time the entry was made. The Goshen Hall Ditching Company and the Union Cattle Company are kindred corporations, doing business in the Territory of Wyoming, and the officers of the latter are the officers of the former. The ditching company had in hand for itself and the cattle company the construction of a system of ditches with which to irrigate their entries, but at only one point alone of the whole line of thirty-five or forty miles has the ditch ever been constructed so as to carry water, and even here it had not been. Many points where cuts of from four to eight feet deep were required by the survey a cut of only one foot is made, and where fills are required none are found. The surface line of the ditch presents the same general appearance—that is, one foot cut throughout its entire length. Again, where ground is rocky, no attempt was made beyond a single-plow furrow to mark the line of the intended ditch. Where flumes were required to span gullies and gulches, no flumes are to be found. It is evident from the nature and character of the work done that these skeleton ditches were made solely for the purpose of proving up. What was done was at the instance of Thomas Sturgis, president of Goshen Hall Ditching Company, and Union Cattle Company. At the dates of the final proof it was known by Sturgis that the ditches, so called, were not capable of carrying water on to land. While each entry stands alone on the books, there is no connection between them all and it lies in the fact that each was made in the interest of the two companies named, or some officers or members thereof. Of fifty-five entrymen, seven live in Wyoming, seven in New Jersey, thirty in New York and eleven in Massachusetts. Inspector Powers went to New York, New Jersey and Massachusetts and interviewed a number of the entrymen. The information he gained shows that Sturgis procured the making of the entries. These foreign entrymen made entries merely 'to oblige' a friend and never considered they actually had any interest in the lands, nor have they ever had any individual water rights. They held papers they had not examined nor knew the purport of simply because by so doing they could serve a friend, and not one of them ever anticipated any remuneration for so doing."

A MYSTERY.

Fate of the Virginia City Miners Undetermined.

Heroic Efforts of Rescuers to Reach Them Foiled.

Small Chances of Their Still Being Alive.

The Suffocating Gases Disappearing from the Lower Levels—The Fourth of July Fund Diverted to Charitable Purposes—Theory of the Fire's Origin.

By Telegraph to The Times.

VIRGINIA (Nev.), June 25.—[By the Associated Press.] The fire in the Gould & Curry mine was brought under control at 9:30 this morning, and all efforts are now being directed to rescue the six imprisoned men. The damage to the mine by the flames is not serious.

The fire occurred in the bob station of the 1500-foot level, a space 25x70 feet in extent. The deaths were caused by the smoke rising to the 400-foot level, and the danger for the remaining six men is through smoke traversing through various drifts from the station. The secretary of the mine says that if the airpipes have passed through the fire all right the six men will be saved.

At noon the fire had been completely extinguished, and a cage had been lowered to the 1500-foot level, in an endeavor to reach the imprisoned men.

2 p.m.—The rescuing party has been driven back by smoke, and nothing is yet definitely known about the fate of the imprisoned men.

It is now known that some of the imprisoned miners were alive at 2 o'clock this morning, for at that hour signals were made to Consolidated Virginia miners from below. They were in the shape of several sharp knocks, and, when answered, were repeated. The glad news came to the surface and spread like wildfire.

3:30 p.m.—Hopes of reaching the imprisoned men through the Gould & Curry shaft are abandoned. They or their dead bodies will be found through a connection which workmen are making from the Consolidated Virginia side. At 9 this morning the winze was down eight feet. Patton says it is now about sixteen feet vertically, and they will have thirty feet more to run on an incline. He expects to knock a hole through and get into the drift from the Gould & Curry, where the imprisoned miners are, by noon tomorrow, but does not expect to find them alive.

A sum of money had been subscribed here for the Fourth of July celebration, but as the loss of life, through the Gould & Curry fire, will mar the festivities on the national holiday, and as families of dead miners are in great distress, it is quite likely this money will be applied to their relief. The Comstock miners donated $1000 for the relief of the Nanaimo sufferers.

Not a sound has been heard today from the imprisoned miners, but there is still slight hope that they may be found alive. Not a moment will be lost until the place where they are imprisoned is reached.

LATEST.

Nothing of importance occurred after the last dispatches sent last evening until this morning, when a party of miners descended through the Savage incline and gained the 800-foot station in the Curry shaft. A cage with men on deck will probably be dropped to the 1300-foot level before morning. Lanterns containing lighted candles were lowered to that depth this morning and were still burning when the cage reached the surface. This indicates that the fire has burnt out from the fact that last night lighted candles lowered in lanterns were extinguished. It is not anticipated that any serious danger has yet been done to the mine by fire. How the fire originated will probably always remain a mystery. The miners under ground were preparing to eat their lunch when the fire broke out, and it is suggested that the fire may have been built in the station on the 150-foot level a few minutes before to heat coffee or tea, and that the fire used for that purpose communicated to the station timbers. Foreman Roger Pendergast and Shaft Boss John Grant are highly eulogized for their perseverance and bravery in rescuing alive the miners employed on the 800-foot level. Only the most heroic courge, coupled with stubborn determination, could have accomplished the rescue of these men.

THE FLURRY.

New York Stock Operators Beginning to Feel Better.

NEW YORK, June 25.—[By the Associated Press.] There is no vestige of yesterday's panic apparent, and although the market was for a while ragged, the roughness soon wore away, and is now generally steady at an advance from 1 to 3. Money is offered freely at 6 per cent. by the same parties that were credited with forcing up rates yesterday. The Times says this morning: "The contingent that is always on parade as possessing Gould information are among the weariest citizens that this town can boast. Every one of them was caught loaded with stocks at top prices. Russell Sage and Jay Gould have slaughtered every one of their friends, as their hangers-on love to label themselves. Jay Gould offers as an excuse for his wholesale calling of loans that he thought stocks were cheap, and he could lend money to better advantage in the market than he could by having it out on loan."

The stock market opened today tame but generally firm, buying orders from London being received. There is a feverish undertone apparent, and recovery from yesterday's semi-panic is slow. This being a half holiday, there is no demand for stocks in the loan crowd, and no rate for money.

EUROPEAN MONEY COMING.

Jesse Seligman predicts that within the next few days gold will be on the way here from Europe, and that tight money is no longer a danger. Other bankers with foreign connections give Seligman's opinion indorsement. Large loans on stock collateral were made after the market closed yesterday.

A FAIRLY RESPECTABLE TOTAL.

Notwithstanding the fact that all settlements for loaned stock and money go over until Monday, transactions at the Stock Exchange today foot up a fairly respectable total. Trading was almost entirely free from excitement, and prices, except for a short time in the first hour, displayed no special movement.

A rumor was circulated that the Secretary of the Treasury would prepay the July interest, and there was considerable buying upon this. There was some little purchasing from outside the city, and London had buying orders in a few specialties. After the early demand was supplied, the market became dull, but after the bank statement was published, and was found to be less unfavorable than expected, better buying was noticeable. There was considerable money loaned, which had been borrowed in anticipation of a squeeze, and the maximum rate today was only 9 per cent. There were attempts to work the market lower in the first hour, and a few stocks declined. It was not a material decline, and in most cases these were fully recovered before the close.

Manhattan was remarkably quiet, and after opening up 4 per cent. at 139, declined to 134, when there were sales of only 500 shares, finally closing at 137. The active list is irregularly changed with the majority of advances, but with the exception of Manhattan, which is up 2 per cent., and Ft. Worth and Denver, which lost 1¼ per cent., the differences are fractional only. Petroleum is firm, but dull, opening at 61¼. Highest, 61¾; lowest, 61⅛; closed, 61⅜. Sales, 386,000 barrels.

The Wine and Spirit Trade.

NEW YORK, June 25.—Bonfort's Wine and Spirit Circular says: "The wine and spirit trade feels the present state of affairs in small orders of buyers, and the difficulty [illegible] and expense of getting supplies, when not there failures occur, but these are generally fraudulent, for, as the principal have been going for the past two years, it has been difficult for an ordinary retailer to avoid making money." Referring to the California Pure Wine Bill, the same circular says it that is a rather funny commentary on the law that, in order to make the provisions operative, it should be found necessary to wipe out the business of the wine merchant. California will discover in time, however, that manufacturing wines and distributing them are two separate businesses, and "pure" wine will not conjure trade.

THE YALE-PENNSYLVANIA RACE.

NEW LONDON (Ct.), June 25.—The two miles straight-away race between freshmen of the universities of Yale and Pennsylvania started at 7:05:54 this evening. The action of the Yale men was magnificent, their stroke being full, vigorous and clean, in distinct contrast to that of their opponents, who pulled ragged. The starting stroke was thirty-four for Yale and thirty-six for Pennsylvania. At the half-mile, which was passed by Yale in 2:21, the rate was: Yale, 55; Pennsylvania, 34, and there was open water between them going up towards the mile flag. Yale passed the mile in 45:2½, four lengths in front. The mile and a half was covered by Yale in 6:58, with another length added to her lead. She finished in 9 minutes 55 seconds, five and a half lengths ahead of Pennsylvania. Time, 10:38½.

FOREIGN.

France and Germany Still at Loggerheads,

And Alsace-Lorraine the Fruitful Cause of It.

Offensive Anti-German Laws Are Proposed in France.

The Duelling Code Receives Imperial Sanction in Germany—Emperor William Nearly Well Again—Received with Enthusiasm by His Admiring Subjects.

By Telegraph to The Times.

BERLIN, June 25.—[By Cable and Associated Press.] Prisoners Koechlin and Blech, who were recently convicted of treason in belonging to the French Patriotic League, were today transferred from Leipsic to Magdeburg Fortress, and their associates, Scheifferman and Trapp, to Gratz, where they will remain until their periods of detention expire. The opinion throughout Germany is that the prisoners have been leniently treated. They may have their sentences modified, but their chance of obtaining commutation is in a cessation of the Patriotic League agitation and in their making a direct appeal for mercy to the Emperor. The tone of the French press in demanding the release of Koechlin, together with threats of retaliation on German subjects in France, tends to inciting and increasing the severities against the French malcontents in Alsace and Lorraine. The position of Germans in France has become, under social persecution, barely tolerable. They would be hunted out of the country altogether but for the protection guaranteed them under the Frankfort treaty. The latest anti-German project to which the attention of Berlin officials have been directed is the proposal before the Chamber of Deputies, making foreign residents in France who may be members of an association, hostile to French interests, liable to fine and imprisonment and expulsion. The proposal is capable of such elastic interpretation as to cover all Germans sojourning in France. The measure, if supported by the Government, will be assumed here to be directly hostile to Germans, and will lead to an energetic remonstrance as a breach of the Frankfort treaty. The Official Gazette for Reichstan in contracting French fables about the suppression of foreign traders and French manufacturers in Alsace-Lorraine define clearly what the German Government aims to accomplish. It declares that the government's desire is to foster all commercial activities and to take only such measures as may be necessary to maintain public peace and weaken influences tending to the reunion of Alsace-Lorraine.

The German Goverument has now decided not to further delay the trial of Klein and his colleagues for high treason committed at investigation of Schnabels. The outbreak of Chauvinism in France has precipitated the trial which will begin July Fourth in open court. This trial will be a great deal more interesting than those of Alsatians at Leipsic, recently, as the prosecution is less intent upon the conviction of Klein and his accomplices than the exposure of the tricks of the French War Office to procure information as to the condition of the fortresses and military plans of Germany.

DUELING RECEIVES ROYAL SANCTION.

The social sensation of the week has been the verdict of the officers of the Court of Honor in the case of Maj. Henze, accused of challenging to duel his political opponent in the Reichstag election, who during the campaign aspersed his honor as an officer. Maj. Henze was retired from the army on a pension. He was a Progressionist Deputy in the late Reichstag. He opposed the Septennate and favored the short-service system. He became intensely unpopular among his former brother officers, who denounced him during the electoral struggle as unfit to bear an army title or to wear orders. He prosecuted his slanderer in a court of law and obtained a successful verdict, whereupon the staff officers of the Guards Corps appointed a court of honor whose decree deprives Hinze of the right and title of major and to wear the uniform of the army. The Emperor has confirmed the degradation of Heinze although there is a clause in the Criminal Code applying equally to soldiers and civilians which forbids challenging to duel under penalty of six months' imprisonment. This decision puts the stamp of the highest authority on dueling as a laudable custom prevailing over the law forbidding it. Hienze's friends claim that the military court was influenced by political hatred.

THE EMPEROR WELL AGAIN.

The Emperor has completely recovered. He drove out at noon today, accompanied by the Duchess of Baden, and in the afternoon heard long reports from Count Herbert Bismarck.

Yesterday he resumed his custom of appearing at a window to return the greetings of the multitude daily gathered in front of the palace. He looked paler than formerly, but is still well set up and hearty. His powers of recuperation are more than a marvel to his physicians, who a week ago authorized notice to the Reichsanziger forecasting his withdrawal from public life. The Emperor is now arranging to visit Gastein, after his sojourn at Ems, and to attend the autumn maneuvers in West Prussia.

ENGLAND CONSIDERING A SUBSIDY.

LONDON, June 25.—The Government is considering an offer by which a subsidy of £50,000 yearly will secure three lines of first-class steamers on the trans-Canadian route to the east. One line connects the Pacific terminus of the Canadian Pacific Railway with Australia.

The Standard says that Afghan negotiations tend to an early and satisfactory settlement.

WHAT RUSSIA MAY DO.

BRUSSELS, June 25.—*Le Nord*, the Russian organ published here, denies the report that Russia is willing to accept an Anglo-Russian convention concerning Egypt. If England will accept the Prince of Minigrivia as Prince of Bulgaria, the paper declares Russia will execute her policy and won't bargain about it.

FRANCO-MEXICAN TREATY.

CITY OF MEXICO (via Galveston, June 25.—It is learned that a new treaty of commerce, friendship and navigation between the republics of France and Mexico contains provisions for the settlement of estates of deceased French citizens in Mexico greatly superior to those enjoyed by citizens of other countries. The treaty has not been published.

GRACE HAWTHORNE.

Ruined by the Nevada Earthquake.

CARSON (Nev.), June 25.—Mr. Lindsey, the locator of the Mono County Marble mine, returned this morning, and states that the property is totally destroyed by an earthquake. The buildings are demolished and the stone cracked in pieces no more than a foot square. This property was already being looked after by capitalists as of great value, but it is now considered as being totally destroyed. It was roughly valued at one million dollars.

CIVIL SERVICE.

A Conference of Secretaries and Commissioners.

NEW YORK, June 25.—[By the Associated Press.] The secretaries of local civil boards at several of the larger cities, called here to confer with the Civil Service Commission with a view to establishing a uniform system of examinations throughout the country and to exchange views upon questions affecting the civil-service system, concluded their conference this afternoon. One of the most important questions discussed was one of amending the present rules so as to provide for the examination and marking of papers of applicants for customs or postal service by the present Central Board of Examination, located in Washington, enlarged by the appointment of one or more efficient officers from each of several of the more important local offices in the country. It is claimed that by this system of examining papers, uniformity in marking and greater promptness would be secured and that it would relieve the system of the suspicion of favoritism. Mason, Secretary of the New York Postoffice Board, and Donovan, of the Chicago custom-house, were appointed a committee to present in writing the views of the secretaries upon this subject. The secretaries unanimously favored raising the minimum standard of eligibility to certification from 65 to 75 except as to such places as required special or technical qualifications. They also favored the discontinuance of the 45-year limitation except in special cases and also to raise the minimum limitation of age of letter-carriers from 16 to 21. The Commission will soon place the matter before the President for his approval.

Trouble in the Cherokee Nation.

LITTLE ROCK (Ark.), June 25.—A dispatch from the Cherokee Nation reached here this morning of serious trouble between contractors and workmen on the railroad now building in the Indian Territory. The reported fight took place last night, in which three men were killed. The United States Marshal and posse have gone to the scene of the disturbance.

READING, (Pa.), June 25.—The Birks county Grand Jury, which has been investigating the frauds among the tax-collectors, today returned bills of indictment against eleven collectors, all prominent citizens, for misappropriating and misusing funds aggregating $30,000. About thirty others will, in all probability, be indicted as well.

Sharp in Close Confinement.

NEW YORK, June 25.—On the request of the District Attorney, the Judge has ordered Jacob Sharp to be hereafter kept in close confinement. The cause of this was the District Attorney's statement to the court that he had been informed that an attempt would be made to carry Sharp beyond the jurisdiction of the court.

A Fight with Smugglers.

That was a very short sentence imposed in France a few days since. A woman was arrested for bigamy, her two husbands appearing as witnesses. They were both worthless fellows, who had conspired to send her to prison. The Judge, after looking at the two husbands, thought that it was a crime which carried its own punishment with it, and sentenced her to be imprisoned for five minutes.

There was a shower of stones near Dolores, in the volcanic region of the Argentine Republic, a few weeks ago, which lasted for more than a minute. The stones fell as thick as hail, and varied in size from a pebble to a very respectable boulder. Great damage was done to trees, while barns and outhouses were demolished, many domestic animals killed and large numbers of wild geese and hawks on the wing.

Two people may joke about the same thing with rather serious results, as was shown by the death of John V. Bernal, a well known jester of Nashville, Tenn. Bernal walked into a drug store and jokingly asked his friend, the prescription clerk, where he could find some poison. The clerk in the same spirit pointed out a bottle of aconite, from which he was making up a prescription, as a drug which would kill without fail, and he poured out a glass of it. Bernal seized the glass and drank the liquid to the horror of his friend. He then said he thought it some innocent compound, and that the clerk was only joking. The joke had been carried beyond the reach of the stomach pump, and Bernal died in a couple of hours.

A Slight Confusion.

[Exchange.]

"Boss, I'ze a bit confused 'bout suthin,'" said one of the negro whitewashers at the market to Detective Webb the other day.

"Well, what is it?"

"What does per annum mean?"

"Per year, of course."

"A hull y'ar!"

"Yes."

"Can't be no mistake?"

"No, sir."

"If I borry $2 of Abraham Johnson an' agree to pay him 20 cents per annum, dat means 20 cents a y'ar, does it?"

"It does."

"Hu! Dar's gwine to be de biggest row in Kaintuck tonight you eber hearn tell of."

"About what?"

"About dat per annum. I borryed $2 of de pusson menshuned at 20 per cent. per annum, an' fur de las' fo'teen months he's been collecting 20 cents a week as regular as a clock. Stuck right to it, he did, dat per annum meant ebery Saturday night. Law! but when I gets dese paws on him won't per annum take a flop."

The Real Cause.

The Lynn Bee, which may be classed as a Democratic paper with a free lance annex, says that the real cause of the veterans' antipathy to President Cleveland "is the scurrilous language used by him in his veto messages in regard to the soldiers who came out of the war broken in health, and who were so unfortunate as to be compelled to seek the shelter of the almshouses of the country in order to save themselves from starvation."

"And—aw—Ethel, how would you suggest that I have them trimmed?" "Well," replied the pretty cousin, after sufficient consideration, "I think they would look very sweet trimmed with pink ribbon."

BUSINESS TOPICS.

The Foothill Country.

The increase in values along the foothill land between Los Angeles and Santa Monica, lately, has been something surprising, even to the oldest inhabitants. But the high prices now being paid have a substantial basis, and are not fictitious or inflated. It is now a well-known fact that the foothill land is the best, both for healthfulness and for raising vines and small fruits, and all the products of the average "home acre." It is well worth while to take a ride along the foothill road from Temple street to the Wolfskill ranch towards Santa Monica, to see the marvelous development in that section. Even on steep hills, considered worthless a year or two ago, vineyards and gardens are flourishing, and land is held at $500 to $700 per acre. This is the kind of soil that is found on the Wolfskill place, and those who take the golden opportunity now offered, of buying stock in the Los Angeles and Santa Monica Land and Water Company, will get an interest in this most valuable property at the rate of $150per acre. The stock is offered at par for a few days only, and nearly 5000 out of 6500 shares have been subscribed. See Byram & Poindexter, 27 West First street.

The Atchison, Topeka and Santa Fé Railroad will run very close to Manzanita Heights. Three street railroads are pushing out in that direction, and the lots in that locality will be very valuable in a short time. A year ago lots in Bonnie Brae tract could be bought for $500 each; now they are worth $2500. Remember this and buy a lot in Manzanita Heights. Lots are from $100 to $400 each. Billings & McGown, 19 North Spring street.

The Best Investment

South Riverside

"GEM OF THE CITRUS BELT,"

Phenomenal in Growth and Prosperity.

Note carefully some of the points in favor of South Riverside as a place for investment, residence or business. It is located about 40 miles east of Los Angeles and 14 miles southwest of Riverside, on the new Santa Fe line, and at the junction of the Pomona and Elsinore Railroad. South Riverside is the center of a very fertile fruit-growing and rich mineral section; is a part of the great orange belt, where can be grown to perfection all kinds of fine fruits and plants known to Southern California.

The tract is subdivided into lots of 5 and 10 acres, and present prices are much lower than elsewhere for the same soil and similar conditions. There are three water systems that will furnish an ample supply for irrigation and domestic use.

In addition to the general fruit interests, there are many kinds of mineral and clay that will soon come into use for building, piping, tiling, etc. White and black sulphur springs, hot and cold, are only a short distance from the townsite. These springs have long been known for their excellent curative properties

There are several miles of rich valley land tributary, while the place has within itself all the elements of successful growth and prosperity.

The town of South Riverside is most unique and inviting. A three-mile grand boulevard encircles the place. This broad avenue will be lined on each side with the choicest variety of plants and trees; from every part of the town the view is magnificent—unsurpassed for extent and variety.

A large amount of permanent improvement is well under way. A fine three-story hotel occupies a central block. The building is modern in design, complete in appointments, and will soon become a delightful resort for health and pleasure seekers. A large bank block is going up, which in design and finish would be a credit to any place. A number of costly residences are building and many more are under contract to go up soon.

Ample provision is made for all public needs and no effort is spared to beautify and adorn the place. Ground is reserved for schools, churches and parks.

South Riverside will become noted for beauty of location, fine climate, active business, having all the advantage of a railroad center, and being near to Los Angeles and within easy reach of mountain and ocean resorts. The many advantages we have will soon become widely known and fully appreciated.

Within six months lots and lands have doubled—in some cases quadrupled—in value. The same property will no doubt double again in the next six months. Everything now gives promise of growth and advance in values unprecedented in the history of such enterprises.

It is very pleasant to take, which is one of the most important requisites where a cough remedy is intended for use among children. I have known of cases of spasmodic croup where I know the life of a little one was saved by the use of Chamberlain's Cough Remedy." Sold by C. H. Hance, 77 and 79 North Spring street.

Mr. C. H. Shawen, Wellsville, Kan., says: "It is with pleasure that I can speak of the good Chamberlain's Colic, Cholera and Diarrhœa Remedy has done in my family during the last thirteen years. In the most obstinate cases of summer complaint and diarrhœa among my children it acts as a charm, making it never necessary to call in a physician. I can truthfully say that it is my judgment, based on years of experience, that there is not a medicine in the market that is its equal as a family remedy, and that I will never keep house without a bottle of it in my possession." Sold by C. H. Hance, 77 and 79 North Spring street.

Los Angeles Potatoes.

B. Holland, who has a place on Vermont avenue, two and a half miles south of Fort Station, showed Tax Tr[illegible] a bucketful of huge potatoes, dug from two vines. There were thirteen of the monster spuds, the largest weighing three and one-half pounds. They grew without irrigation. Mr. Holland will at once raise a big crop of fodder on the same land.

CHANGED HIS MIND.

A Tough Concludes Not to Disturb the Peace.

As mentioned in yesterday's TIMES, Officer W. H. Gilbert had failed, by strict attention to duty, to entirely please some of the doubtful characters residing on his beat, and one of them, Camillo Pelegrim, was so incensed at the behavior of the officer that, seeking Justice Taney, he in a rash moment swore out a complaint against Gilbert to the effect that:

"At the time and place aforesaid, he, W. H. Gilbert, did wilfully omit to perform his duty as enjoined by law upon him as a public officer, in this, to wit: By neglecting to properly attend to the beat appointed to him, and by preventing this affiant to open his house to carry on business, and by sitting in a chair in front of affiant's house for hours, to prevent persons from entering, and by neglecting to walk his beat, he, the aforesaid W. H. Gilbert, being then and there a police officer on duty."

The case had been set for trial before Justice Taney, at 2 o'clock, and a jury had been summoned for the purpose and was present. Camillo Pelegrim and his witnesses loomed up in great force, and all might have gone well with Camillo had it not been for the fact that, at a few minutes before 2 o'clock, the police force of the city began to show up one at a time, until in looking around at the faces of the officers present, Camillo recognized several of the fine coats that he would rather not have present, when it came to putting them on the witness stand on the side of the defense; so hurriedly and anxiously hunting up his attorney, W. S. Chelf, Camillo expressed a wish that the case be dismissed, as he didn't believe he "had anything against Officer Gilbert to make such a fuss over."

But while the prosecuting witness had all at once become so magnanimous, the witnesses on either side, the jury, the justice and constables, all wanted their fees, and Camillo was gently but firmly informed that if he dismissed the case without letting it go to trial, he must pay all costs. At this agonizing news, Camillo's face grew long, and he looked dismally first at the prisoner and then at the immovable faces of the police officers, whom he well knew if they were placed on the stand for the defense would be mighty apt to uncover some little matters that he preferred should be buried in the most oblivious of oblivion. This thought determined him, and he said he would be on hand Monday to pay the costs.

So that the matter might stand straight on the records of his court, and that the prosecuting witness could have no possible chance of again changing his mind, Justice Taney, in dismissing the witnesses and the jury, asked that the attorney for the defense make the declaration as agreed upon when he announced that "the case of The People vs. W. H. Gilbert was dismissed at the request of the prosecution, against whom the costs weae assessed, complainant agreeing to pay the same on Monday morning next."

LETTERS FROM THE PEOPLE.

By the River.

THE CRYING EVIL OF SUBDIVISION—NEGLECTED ORCHARDS.

LOS ANGELES, June 25.—[To the Editor of THE TIMES.] Property-owners in the several tracts by the river are forgetting the vines and orange trees, evidently, by the parched appearance which the trees now assume—showing that labor has ceased since the astonishing demand for property in that quarter has given rise to the formation of new thoroughfares and the spontaneous opening up of a section of Los Angeles hitherto entirely devoted to the cultivation of the vine and the orange tree. The water-ditches or zanjas are closed and irrigation goes on no longer, and the trees are dying fast for want of moisture. It is not too late to save them, and the holders of the lots would be doing a service to themselves and to Los Angeles by amalgamating and arranging a course of irrigation. It may here be suggested that the owners who cut up the tracts should make a small charge on each lot sold to continue the irrigation of the land. An experienced settler in that locality informs me that the trees are clean and free from parasites, such as scale bugs, etc., and few parts of Los Angeles where orange trees are grown are free from such defects. If the trees were irrigated say once a month, and the plough run over the land a few days afterward, the trees would be healthy and strong, and the cost to each lotholder would be very small, while he would be enhancing the value of his property and helping to sustain an ornament to that part of the city which is undergoing a change unparalleled in the history of the development of any town in the world. Artists' Excursion.

[Pasadena Union.]

Prof. J. H. Lewis, accompanied by Mrs. Lewis, will spend the month of July at Switzer's camp in sketching the scenery in that vicinity. They will take a few pupils, who will be afforded a splendid opportunity for gaining exceptionally good instruction, and enjoying at the same time the pleasures of mountain life. The terms are very reasonable and all expenses are covered, including board, lodging and instruction in painting. Those desiring to make arrangements for spending a few weeks with Prof. Lewis's party can correspond with him at Sierra Madre, or consult him on Thursdays at his studio, in the W. W. Mills block. We think those who have any artistic taste should avail themselves of this privilege.

On account of the increased travel east, the Santa Fé route has arranged for extra Pullman cars on their through Kansas City trains. They are also now running their emigrant tourist sleeping cars direct from Los Angeles to Kansas City direct.

LIVERPOOL WEEKLY REVIEW.

LIVERPOOL, June 25.—A leading grain circular says: Brilliant weather depresses Wheat, which shows no sign of reaction from the marked decline of last week. Indications are that the bottom nearly has been touched, both here and in America. Today there was a fair attendance at the market. The tone was quiet, and limited business done. Red Wheat was a penny lower, and White unchanged. Flour was quiet, at recent rates. There was moderate sales of Maize, at unchanged prices.

Special Announcement.

The first advance in the price of Ivanhoe lots was made June 1st, as per advertisement for several months. For various good reasons, some of the lots are left at the original prices for another month; but most of them have been advanced 20 to 50 per cent. Even at advanced prices it is the best property offered for the money anywhere around Los Angeles, and buyers should choose their lots before the next advance, which will be made in July. The sale of lots in May was larger than in any previous month, and the end of June will find most of the lots sold. All who see Ivanhoe agree that it is the best property for the least money that can be found. The water system and the dummy road will both be ready by July, and many houses will be built in the next two months. Is you want a first-class, large lot, for a small sum of money, come at once. Byram & Poindexter, 27 West First street.

WASHINGTON.

SOME SCATTERED RELICS IN THE NATION'S CAPITAL.

The Grant Collection from Round the World—Trophies of Lincoln's Assassination and of the Attack on Seward.

WASHINGTON, June 20.—[Correspondence of THE TIMES.] To those wholly sentimental, the grave of John Howard Payne is, perhaps, the shrine of shrines in Washington. That justice has, at last, been done to the ashes of the author of "Home, Sweet Home," enchains the attention of the romantic mind.

Just within the gates of Oak Hill Cemetery, in a broad circle of dear, old-fashioned periwinkle, stands the exquisite monument, surmounted by the poet's bust. A circlet of palm branches and cacti is delicately sulptured on one of its sides; on the opposite is an ivy-twined lyre, surrounded by branches of laurel. The front face holds this epitaph:

In memory of
JOHN HOWARD PAYNE,
Author of
"HOME, SWEET HOME."
Born June 9, 1791.
Died April 9, 1852.

The obverse, this stanza:

Sure, when thy gentle spirit fled
To realms beyond the azure dome,
With arms outstretched, God's angels said,
Welcome to Heaven's Home, Sweet Home.

Adjacent, in the grass plat, lies the Tunis tablet. Beneath our country's coat of arms is the following inscription:

In memory
of
COL. JOHN HOWARD PAYNE,
Twice Consul of
The United States of America for the City and Kingdom of Tunis, this stone is here placed by a grateful country.
He died at the American Consulate in this city after a tedious illness,
April 1, 1852.
He was born at the City of Boston,
State of Massachusetts,
June 9, 1791.

His fame as a poet and dramatist is well known wherever the English language is spoken, through his celebrated ballad of "Home, Sweet Home," and his popular tragedy of *Brutus*, etc, and other similar productions.

No leaf in W. W. Corcoran's chaplet of good deeds—not even his noble gallery enriched with the best of modern art, on canvas, in marble and bronze, and amply endowed with models from the choicest antiques, nor the beautiful "Louise Home," named for his dead wife and daughter, and devoted to the needs of aged and indigent gentlewomen, will be as perennially green as his restoration to their native land of poor Payne's bones.

But everybody don't go to Oak Hill Cemetery, while everybody does go to the National Museum. The

GRANT MEMORIALS

have very recently been added to that noble collection. Resting in thick crystal cases, in the place of honor, near the entrance, they are continually surrounded by an eager crowd. And what do they see? Unspeakable treasures—miracles of interest to everybody, and preëminently to Americans. Here are costliest caskets holding the freedom of the great cities and the strong capitals of the broadest realm of earth—Manchester and Glasgow, London and Edinburgh, Birmingham and Dublin, yieing with Calcutta and Bombay in sumptuous tokens of unlimited hospitality, Dublin's perhaps the most artistically national—less gold, which belongs to all the world—mostly of black, lusterless, Irish bog-oak, beautifully encrusted with golden shillalahs and shamrocks.

I think, on the whole, if the choice of all the regal splendors bestowed on Grant were offered me, I'd take the

ONYX SIDEBOARD

presented by the City of Mexico. The merest bit of the true onyx fascinates me. There are two huge slabs, as shelves, six feet long and thirty inches broad, held in a rich golden bronze frame. Such great, enchanting surfaces, with countless tintings and translucent depths of infinite softness! Such eye-satisfaction! Well, give me the onyx sideboard. To be sure, one might hesitate when the eye fell on the Chinese gifts of Satsuma vases, breast high, and silken embroideries, wrought with magical effects; or, that Koran, in Arabic, from the Khedive of Egypt—a ponderous, vellum tome, silver-lidded, with bosses, each one a pearl, in setting of gold; or, that multitude of medals from sovereigns and cities along his line of travel round the world; or, those stately vases from Mikado-land (thought the loveliest of all regions by Mrs. Grant)—bronzes, well-nigh priceless, with blossoming branches of the plum in raised gold as their imperial decorations; or, some of the scores of choicest offerings—jewel-hilted swords, in golden scabbards, rifles and pistols with richest mountings, curious canes—everything, each and all after its kind, products of the highest skill of the nineteenth century.

I doubt not the comprehensive mind of Grant appreciated all these triumphs of modern skill, but I espied a little label tied to a rude Asiatic charm of dark stone which showed his especial interest in quite another direction. The writing is his own and reads thus: "'Lakhsmis' hand.' A teacher in a famous Hindoo temple gave it to me. It has been worn. U. S. G."

Hard by, dimmed by wear and weather, lie the "shoulder straps worn by Grant during all his campaigns." These, I can but believe, were given by Mrs. Grant, as significant of the stern experiences from which sprung all these unexampled tokens of

WORLDWIDE HONORS.

After inspecting the Grant memorials as thoroughly as the throng will allow, one begins to look around for other things, naturally expected to be in the National Museum. Many of them are not to be found; but, in their place—what surely should be elsewhere—e. g., the large Custis collection of Washington relics, which so unquestionably belongs at Mt. Vernon. And how tiresome the task of wandering over square miles of the Capital City to find in the various public buildings such mementoes of the past as the original draft of the Declaration of Independence, Jackson's "Old Hickory" cane, Franklin's famous walking-stick, his rude old printing press and "Book of Postoffice Accounts," etc., etc.

The worst result of this senseless scattering is the struggle to find the lurking place of the ghastly

ASSASSINATION RELICS.

After infinite inquiry and effort, fortified by the privileges of "the press," I finally traced them out in the "Winder building," the old quarters of the War Department. I held in my hand the derringer and flattened bullet which ended Lincoln's life; felt the edge of the dagger Booth flourished with the cry, *Sic semper tyrannis*, and glanced through the assassin's memorandum-book in use during his flight.

With these are shown articles connected with the

SEWARD ATTACK—

the knife thrust at the Secretary; the gray felt hat dropped by the assassin when Fred Seward entered and confronted the wretch, with sundry other evidences of the murderous plot. Why, oh! why are not these relics, of the most thrilling episode in national life, on view in the National Museum?

Another growl or two and I'll resign the rôle of the reformer.

Grover Cleveland is not yet conscious that the White House is the property of the Nation. Except on state occasions only the east room is accessible—not even the conservatories can be seen. But one day, during the hand-shaking hour, my wife so won over the head gardener with tales of California growth that he opened up the gates of horticultural glory—at least, quietly left them ajar, and in we went for a happy time.

Then, again, the Mt. Vernon mansion is not open enough to suit me. Every room with *authentic relics*, except the banquet hall, where all things are in glass cases, is barred from the public with iron gratings in the doors. Vandalism is the alleged reason for exclusion. If, indeed,

SOUVENIR-SEEKERS

are so lawless, double the guard, collect a tax from some source, so that the rights of the trustworthy are not curtailed. The library is an exception—open to all. Why? The library is not there. Where is it? In the Boston Athenæum—sold to that institution, in 1806, for a paltry $2000. Query: Can Miss Alice Longfellow, the vicepresident for Massachusetts, develop enough of national pride in the membership of said Athenæum to induce it to replace those "444 books and several hundred pamphlets" upon the shelves, now so painfully vacant? If so, she will build herself an everlasting name.

WHO IS THE
LUCKY MAN?
THIS MEANS YOU.

Here is a Little Speculation that will discount anything in the Market

Eighty-five acres of choice land, suitable for the successful growing of strawberries of the finest kind, as well as any small fruit or vegetables, in the town of Compton, less than one-half mile from the railroad depot, has been subdivided into sixteen tracts, of which fifteen contain five acres each and one ten acres; 65 acres of it in alfalfa. One of the five-acre tracts has a $2500 house, $500 barn, and the finest artesian well in the land, and is easily worth $4500.

Any one of the five-acre tracts can be so planted as to support any man and his family, and do it well.

These sixteen tracts will be distributed among the sixteen lucky purchasers of the sixteen tickets, now for sale.

Every purchaser gets more than the worth of his money, and, besides, there are

TWO GRAND PRIZES!

FIRST PRIZE—The tract with the house, barn and well, worth $4500.

SECOND PRIZE—The ten-acre lot, worth $2000.

Price of each chance, only $1000.

TERMS—$100 down. $400 on day of drawing, and $500 on March 1, 1888.
